INTRODUCTION

This directory, compiled by the National Center for Education Statistics (NCES), lists the principal officers of State education agencies responsible for the State-level administration of elementary-secondary and vocational-technical education. Included are 49 States (information for Louisiana was not available this year), the District of Columbia, and four outlying areas (American Samoa, Canal Zone, Guam, and the Virgin Islands).

Each listing includes officials from the level of superintendent (or equivalent) through the level of branch chief (or equivalent). (There may be some variation among the listings in the interpretation of these equivalencies.) Telephone numbers are provided for all listed staff members; addresses are provided only if they differ from that of the superintendent.

The information was provided by the respective agencies during the winter of 1976-77 and does not reflect personnel changes or reorganization in the agencies since that time.
